Pop-style or announced playing tests on selections from concert music to be given as well. Students can be prepared for these by practicing their music and playing it correctly.		

Test lines are to be completed by the end of the test date listed for each test. If students would like to complete material prior to the deadline, they may do so. Since the goal is mastery of the test lines, they are graded on a Pass/Fail basis (100 or 0). Students should have the test for that week completed in order to receive credit. Students may pass off test lines before school, during after school help days, and when times are offered in class. Also, emailed video records are allowed.
